Military History of Late Rome 565-602 Ilkka Syväne, 2022-09-21 A fresh analysis of the Roman Empire in the aftermath of the reconquests of Justinian I It is often claimed that Justinian overstretched the Roman resources but the analysis in *Military History of Late Rome 565 602* proves that view wrong It demonstrates that the initial troubles were largely the result of the mistakes of Justin II and that his successors Tiberius II and Maurice not only restored its fortunes but were at the time of Maurice s death actually poised to complete the reconquests of Justinian It was thanks to the reforms of Maurice which were codified in the military treatise the Strategikon that the Roman army had achieved a position of relative superiority over all of its enemies so that by 602 the Romans had decisively defeated the Persians Slavs and Avars These gains however were lost when Maurice was murdered in a military mutiny that brought Phocas to power This volume explains why the Roman army overthrew one of the greatest Roman emperors who ever lived This was an era of epic battles so the author also pays particular attention to the period tactics and analyzes all the period battles in great detail These include such battles as Melitene Constantia Sirmium Nymphius River Solancho Lake Urmiah Plain of Canzak Iatrus and the epic battles of Priscus and Comentiolus in the Balkans Praise for *Military History of Late Rome 425 457* An outstanding work the series gives us a very good picture of the long process that has come to be known as the Fall of Rome This is an invaluable read for anyone with an interest in Late Antiquity The NYMAS Review [Report](#) United States Tariff Commission, 1931 [Results of Observations Made at the Coast and Geodetic Survey Magnetic Observatory Near Honolulu, Hawaii](#) U.S. Coast and Geodetic Survey, 1913 **Magnetograms and Hourly Values, San Juan, Puerto Rico** U.S. Coast and Geodetic Survey.
