the process of regiment raising Military recruiting involved a clear recognition on the part of the Highland landlords and tenantry that the Empire and the fiscal military state offered alternative sources of revenue Both groups colonised various levels of the state s military machine As a result of this close involvement the government remained a vital influence in the area well after 1745 and a major player in the region s economy Recruiting was not simply a residue of clanship rather it was a form of commercial activity analogous to kelping Water-supply Paper ,1915 *Hypsometry* William Bowie,U.S. Coast and Geodetic Survey, Henry Godfrey Avers, 1914 **Annual Report** United States.
