September 30, 1980 ,1983 *Federal Register, ... Annual Index* ,1956 Why the Tax Year Begins On Sixth April Alan
O'Brien,2018-08-06 This book explains why the UK tax year begins on 6 April and traces the history of the old tax year which
began on 25 March It also covers other aspects of calendar history The move from the Julian to the Gregorian calendar in
1752 resulted in the omission of 11 days from September 1752 The omitted days were later added to the tax year and that
apparently meant a new tax year beginning on 5 April not 6 April There are various explanations for the addition of a further
day so the year began on 6 April including the suggestion that a day was added in 1800 In fact the old tax year ran from 25
March and an ancient legal rule said from meant the year began on the following day 26 March Hence adding 11 days to 26
March produced a new tax year beginning on 6 April It is often said that the Treasury extended the tax year by 11 days to
avoid losing money This is untrue The taxpayer paid a full year s tax for a short year This work is also available as a free
