Federal Aviation Administration,1986 *Xhtml* Jitendra Patel,2012-12-30 XHTML XHTML is a markup language for Web pages from the W3C World Wide Web Consortium XHTML combines HTML and XML into a single format HTML 4 0 and XML 1 0 Like XML XHTML can be extended with proprietary tags Also like XML XHTML must be coded more rigorously than HTML Over the years HTML coders have become sloppy because Web browser software was originally written to tolerate many variations in HTML coding but with XHTML coders must conform to the XML rules In one sentence we can say that XHTML is a superset of HTML but unlike HTML it is stricter to rules and requires a document to follow XML rules Whereas HTML is an application of SGML a very flexible markup language XHTML is an application of XML a more restrictive subset of SGML Because they need to be well formed true XHTML documents allow for automated processing to be performed using standard XML tools unlike HTML which requires a relatively complex lenient and generally custom parser XHTML can be thought of as the intersection of HTML and XML in many respects since it is a reformulation of HTML in XML , Those Elusive Deuteronomists Linda S. Ecological Research Series,1979 **The Athenian Funeral Oration** David M. Pritchard,2024-02-01 In classical Athens a funeral speech was delivered for dead combatants almost every year the most famous being that by Pericles in 430 BC In 1981 Nicole Loraux transformed our understanding of this genre Her *The Invention of Athens* showed how it reminded the Athenians who they were as a people Loraux demonstrated how each speech helped them to maintain the same self identity for two centuries But *The Invention of Athens* was far from complete This volume brings together top ranked experts to finish Loraux s book It answers the important questions about the numerous surviving funeral speeches that she ignored It also undertakes a comparison of the funeral oration with other genres that is missing in her famous book What emerges is a speech that had a much greater political impact than Loraux thought This volume puts the study of war in Athenian culture on a completely new footing
