*The King's Other Body* Theresa Earenfight, 2012-02-24 Queen Mar a of Castile wife of Alfonso V the Magnanimous king of the Crown of Aragon governed Catalunya in the mid fifteenth century while her husband conquered and governed the kingdom of Naples For twenty six years she maintained a royal court and council separate from and roughly equivalent to those of Alfonso in Naples Such legitimately sanctioned political authority is remarkable given that she ruled not as queen in her own right but rather as Lieutenant General of Catalunya with powers equivalent to the king s Mar a does not fit conventional images of a queen as wife and mother indeed she had no children and so never served as queen regent for any royal heirs in their minorities or exercised a queen mother s privilege to act as diplomat when arranging the marriages of her children and grandchildren But she was clearly more than just a wife offering advice she embodied the king s personal authority and was second only to the king himself She was his alter ego the other royal body fully empowered to govern For a medieval queen this official form of corulership combining exalted royal status with official political appointment was rare and striking The King s Other Body is both a biography of Mar a and an analysis of her political partnership with Alfonso Mar a s long busy tenure as lieutenant prompts a reconsideration of long held notions of power statecraft personalities and institutions It is also a study of the institution of monarchy and a theoretical reconsideration of the operations of gender within it If the practice of monarchy is conventionally understood as strictly a man s job Mar a s reign presents a compelling argument for a more complex model one attentive to the dynamic relationship of queenship and kingship and the circumstances and theories that shaped the institution she inhabited

The Jews in Sicily Shlomo Simonsohn, 1997 This volume of the Documentary History of the Jews in Italy is the eighth of the second series illustrating the history of the Jews in Sicily based on notarial and court records It is the sequel to the eight volumes of the first series Notarial deeds drawn up by public notaries in Palermo and elsewhere and cases brought before the Pretorian Court in Palermo present a kaleidoscopic picture of the private lives of the Jews of Sicily during the last three centuries of their presence on the island They illustrate the economic social and religious history of the Jewish minority and the relations with the Christian majority Much information is provided on trade and commerce crafts and professions religious and family life Some light is thrown also on the internal life of the communities particularly the larger ones including organization and institutions the synagogue education customs and traditions Although the surviving legal deeds present only a fraction of the total drawn up in those years they are copious and abundant Over 30 000 documents of this group were selected for publication most appearing here for the first time While some documents are discussed at length the majority are only presented in summary form The volume is provided with additional bibliography and indexes while the

introduction will appear at the end of the series

**Every-name Index for the Two Volumes of History of Frederick County, Maryland by T.J.C. Williams and Folger McKinsey** Patricia A. Fogle, 2002 For all of its magnificence this irreplaceable work has a major shortcoming it lacks an every name index Now thanks to the prodigious efforts of Patricia A Fogle Clearfield Company is proud to announce the publication of a complete name index to Williams and McKinsey's History of Frederick County Maryland Like the work it is based upon the index is divided into two parts The index to Volume I the historical narrative takes up the first third of Mrs Fogle's effort while the remaining two thirds cover the genealogical sketches in Volume II All told the researcher will find more than 40 000 individuals named in this index All individuals or libraries who currently own the History of Frederick County Maryland will want to purchase Mrs Fogle's finding aid as an invaluable companion to the original volumes Those researching Frederick County who do not own the History but can gain access to the base volumes will also want to keep Mrs Fogle's Index on hand since it unlocks an enormous number of links to the county's past

**Infrared Band Handbook** Herman A. Szymanski, 2013-11-11 This Handbook includes all the data of the first edition and its supplements and sufficient additional material to nearly double the total number of entries It is hoped that enough entries are now given to represent most structural groups and environments Infrared spectroscopy as a tool for the identification of compounds can be used in conjunction with other methods such as NMR and UV spectroscopy or alone to quickly establish the presence or absence of particular structural groups Computer search techniques can be applied to infrared data for the identification of unknowns but the time required for the analysis will be substantial These volumes will best serve those who wish to locate infrared data quickly and without recourse to instruments or related equipment Typical applications in which the Handbook can best be utilized follow 1 Searching a specific wavelength region for samples of compounds having absorption bands in that region and relating this information to the compound under study 2 Assigning vibrations for a compound by noting assignments for similar compounds 3 Obtaining literature references 4 Obtaining optimum sample conditions for determining the spectrum of a compound 5 Identifying an unknown where data are not readily available 6 Locating literature data on band positions including references where only one band position is reported 7 Enlarging present data files including computer tapes 8 Browsing through as many data as one wishes Other mechanical or computer sources often yield too many data

**Industrial Ventilation Design Guidebook** Howard D. Goodfellow, 2001-05-19 The Industrial Ventilation Design Guidebook addresses the design of air technology systems for the control of contaminants in industrial workplaces such as factories and manufacturing plants It covers the basic theories and science behind the technical solutions for industrial air technology and includes publication of new fundamental research and design equations contributed by more than 40 engineers and scientists from over 18 countries Readers are presented with scientific research and data for improving the indoor air quality in the workplace and reducing emissions to the outside environment The Guidebook represents for the first time a single source of all current scientific information available on the subject of

industrial ventilation and the more general area of industrial air technology New Russian data is included that fills several gaps in the scientific literature Presents technology for energy optimization and environmental benefits A collaborated effort from more than 60 ventilation experts throughout 18 countries Based on more than 50 million dollars of research and development focused on industrial ventilation Includes significant scientific contributions from leading ventilation experts in Russia Presents new innovations including a rigorous design methodology and target levels Contains extensive sections on design with modeling techniques Content is well organized and easily adaptable to computer applications Cotton
