[ed. by Robert Davies]* William Dugdale, 1859 , **Waterborne Transportation Lines of the United States**, 2001 The New England Historical & Genealogical Register and Antiquarian Journal , 1864 OSHKOSH , 1998 *English Economic Thought in the Seventeenth Century* Seiichiro Ito, 2020-11-09 In the seventeenth century England saw Holland as an economic power to learn from and compete with English Economic Thought in the Seventeenth Century Rejecting the Dutch Model analyses English economic discourse during this period and explores the ways in which England's economy was shaped by the example of its Dutch rival Drawing on an impressive range of primary and secondary sources the chapters explore four key areas of controversy in order to illuminate the development of English economic thought at this time These areas include the herring industry the setting of interest rates banking and funds and land registration and credit The links between each of these debates are highlighted and attention is also given to the broader issues of international trade social reform and credit This book is of strong interest to advanced students and researchers of the history of economic thought economic history and intellectual history **Protestantism and Patriotism** Steven C. A. Pincus, 2002-05-09 A detailed study of the first two Anglo Dutch Wars and the ideological contexts in which they were fought The Idea of Principles in Early Modern Thought Peter R. Anstey, 2017-04-07 This collection presents the first sustained examination of the nature and status of the idea of principles in early modern thought Principles are almost ubiquitous in the seventeenth and eighteenth centuries the term appears in famous book titles such as Newton's Principia the notion plays a central role in the thought of many leading philosophers such as Leibniz's Principle of Sufficient Reason and many of the great discoveries of the period such as the Law of Gravitational Attraction were described as principles Ranging from mathematics and law to chemistry from natural and moral philosophy to natural theology and covering some of the leading thinkers of the period this volume presents ten compelling new essays that illustrate the centrality and importance of the idea of principles in early modern thought It contains chapters by leading scholars in the field including the Leibniz scholar Daniel Garber and the historian of chemistry William R Newman as well as exciting emerging scholars such as the Newton scholar Kirsten Walsh and a leading expert on experimental philosophy Alberto Vanzo The Idea of Principles in Early Modern Thought Interdisciplinary Perspectives charts the terrain of one of the period's central concepts for the first time and opens up new lines for further research **The Correspondence of John Wallis (1616-1703)** Philip Beeley, Christoph Scriba, 2005-01-13 This is the second volume of a six volume compendium on the correspondences of John Wallis 1616-1703 Wallis was Savilian Professor of Geometry at Oxford from 1649 until his death and was a founding member of the Royal Society and a central figure in the scientific and intellectual history of England Along with his role as decipherer on the Parliamentary side during the Civil War he prepared

the ground for the discovery of infinitesimal calculus by Newton and Leibniz and played a decisive role in modernization of English mathematics This volume provides fascinating insight into the life of Wallis through his correspondences with intellectual and political figures of the latter part of the 17th century *Fruit and Vegetable Truck Rate and Cost Summary*, 1993 *Report Großbritannien Royal Commission on Historical Manuscripts*, 1894 **A Catalogue of the Manuscripts of Christiaan Huygens including a concordance with his Oeuvres Complètes** Joella Yoder, 2013-05-13 A Catalogue of the Manuscripts of Christiaan Huygens inventories all known manuscripts written by Christiaan Huygens as well as all letters to or from him Because almost all of the manuscripts are housed at the University of Leiden in a collection entitled Codices Hugeniani the catalogue contains an inventory of that entire collection of family papers including many involving Constantijn Huygens In addition because most scholars begin their research by consulting Oeuvres Complètes de Christiaan Huygens which does not provide enough information to relocate the manuscripts edited therein this catalogue essentially footnotes every edited piece by listing the source manuscripts page by page for each volume Thus the researcher should be able to move easily between manuscript and edition **Report of the Work of the Public Archives** Public Archives of Canada, 1884 **A Corpus of Rembrandt Paintings IV** Ernst van de Wetering, 2005-10-18 Volume IV of A Corpus of Rembrandt Paintings deals uniquely with the self portraits of Rembrandt In a clearly written explanatory style the head of the Rembrandt Research Project and Editor of this Volume Ernst van de Wetering discusses the full body of work of paintings and etchings portraying Rembrandt He sets the different parameters for accepting or rejecting a Rembrandt self portrait as such whilst also discussing the exact working environment of Rembrandt and his apprentices This workshop setting created a surroundings where apprentices could be involved in working on Rembrandt paintings making it more difficult to determine the hand of the master Van de Wetering who is one of the Rembrandt experts of our day and age goes down to great detail to explain how the different self portraits are made and what techniques Rembrandt uses also giving an overview of which paintings are to be attributed to the Dutch Master and which not In the additional catalogue the self portraits are examined in detail In clear and accessible explanatory text the different paintings are discussed larded with immaculate images of each painting Details are shown where possible as well as the results of modern day technical imaging like X radiography This work of art history and art research should be part of every serious art historical institute university or museum Nowhere in the art history have all Rembrandt's self portraits been discussed in such detailed and comparative manner by an authority such as Ernst van de Wetering This is a standard work for decades to come **Green's Connecticut Annual Register and United States Calendar for ...**, 1848 *Dutch and Flemish Newspapers of the Seventeenth Century, 1618-1700 (2 Vols.)* Arthur der Weduwen, 2017-11-06 Winner of the 2019 Menno Hertzberger Encouragement Prize for Book History and Bibliography In Dutch and Flemish Newspapers of the Seventeenth Century Arthur der Weduwen presents the first comprehensive account of the early newspaper in the Low Countries Composed of two volumes this survey provides detailed
