Miller,2017-09-29 The ten essays published in this volume were written over the space of a decade but they were conceived from the start as a coherent whole presenting Peiresc s study of discrete languages and literatures of the Near East and North Africa For Peiresc the student of the Classical past this described the eastern and southern space in which the Greeks and Romans lived and strove For Peiresc the Christian this was the world of the Bible that impacted upon the Greeks and Romans And for Peiresc of the Mediterranean for he was born in Aix spent much time in Marseille and lived outside of the

region for only 6 of his 57 years this was the territory that his friends and colleagues sailed to lived in and usually came back from The convergence of these axes in the life of one man and a man of singular intellectual power and charm whose vast personal paper arsenal had survived makes this such a compelling project The essays are arranged in a roughly chronological order They follow the course of Peiresc's own projects from his early encounter with the ancient Near East in Greek and Roman literature through his engagement with Arabic to his deepening knowledge of rabbinic texts to the wider world of the new oriental studies of the seventeenth century which he helped create Samaritan Coptic and Ethiopic **Annals** Harvard College Observatory, 1895 List of quarto publications exclusive of the Annals made by the officers of the observatory from 1877 to 1896 with references to the work of the Blue Hill observatory from 1885 to 1895 v 30 p 3 8 *Directory of VA Dementia Services*, 1990 *The School of Montaigne in Early Modern Europe* Warren Boutcher, 2017-03-09 This major two volume study offers an interdisciplinary analysis of Montaigne's Essais and their fortunes in early modern Europe and the modern western university Volume one focuses on contexts from within Montaigne's own milieu and on the ways in which his book made him a patron author or instant classic in the eyes of his editor Marie de Gournay and his promoter Justus Lipsius Volume two focuses on the reader writers across Europe who used the Essais to make their own works from corrected editions and translations in print to life writing and personal records in manuscript The two volumes work together to offer a new picture of the book's significance in literary and intellectual history Montaigne's is now usually understood to be the school of late humanism or of Pyrrhonian scepticism This study argues that the school of Montaigne potentially included everyone in early modern Europe with occasion and means to read and write for themselves and for their friends and family unconstrained by an official function or scholastic institution For the Essais were shaped by a battle that had intensified since the Reformation and that would continue through to the pre Enlightenment period It was a battle to regulate the educated individual's judgement in reading and acting upon the two books bequeathed by God to man The book of scriptures and the book of nature were becoming more accessible through print and manuscript cultures But at the same time that access was being mediated more intensively by teachers such as clerics and humanists by censors and institutions by learned authors of past and present and by commentaries and glosses upon those authors Montaigne enfranchised the unofficial reader writer with liberties of judgement offered and taken in the specific historical conditions of his era The study draws on new ways of approaching literary history through the history of the book and of reading The Essais are treated as a mobile transnational work that travelled from Bordeaux to Paris and beyond to markets in other countries from England and Switzerland to Italy and the Low Countries Close analysis of editions paratexts translations and annotated copies is informed by a distinct concept of the social context of a text The concept is derived from anthropologist Alfred Gell's notion of the art nexus the specific types of actions and agency relations mediated by works of art understood as indexes that give rise to inferences of particular kinds Throughout the two volumes the focus is on the particular nexus in which a copy an edition an extract is

embedded and on the way that nexus might be described by early modern people

Dutch-Asiatic Shipping in the 17th and 18th Centuries J.R. Bruijn, 2013-11-11 This book presents tables which give a virtually complete survey of the direct shipping between the Netherlands and Asia between 1595-1795. This period contains first the voyages of the so-called Voorcompagnieën and then those for and under control of the Verenigde Oostindische Compagnie (VOC). The survey ends in 1795. That year saw an end of the regular sailings of the VOC between the Netherlands and Asia since following the Batavian revolution in January the Netherlands became involved in war with England. The last outward voyage left on 26 December 1794. After news of the changed situation in the Netherlands was received in Asia the last homeward voyage took place in the spring of 1795. The VOC itself was disbanded in 1798. In total 66 voyages of the voorcompagnieën are listed, one more than the traditionally accepted number. The reconnaissance ship POSTILJON from the fleet of Mahu and De Cordes that was collected en route is given its own number 0022. Since the attempt of the Australische Compagnie to circumvent the monopoly of the VOC can be considered as a continuation of the voorcompagnieën, the voyage of Schouten and Le Maire is also listed 0196-0197. For the rest exclusively the outward and homeward voyages of the VOC are mentioned in the tables. Of those there were in total 4722 outward and 3359 homeward.

Newsletters from the Caroline Court, 1631-1638: Volume 26 Michael C. Questier, 2005-09-19 The newsletters printed in this volume were written by Catholics who had access to the Court of Charles I and Henrietta Maria during the 1630s. The letters' principal concern was the factional strife among English Catholics, particularly over the issue of whether they should be subject to the authority of a Catholic bishop appointed by the papacy to live and rule over them in England. But these letters also contain Court news and gossip, information about foreign policy issues, and comment on the contemporary Church of England controversies over theology and clerical conformity. They are an important source for the study of the ideological tone of the Caroline Court and of the ambition of certain sections of the Catholic community to secure a form of legal tolerance from the crown.
