Die Convertiten seit der Reformation: Bd. 1653-1670 ,1868 The New England Historical & Genealogical Register and Antiquarian Journal ,1855 , Dutch and Flemish Newspapers of the Seventeenth Century, 1618-1700 (2 Vols.) Arthur der Weduwen,2017-11-06 Winner of the 2019 Menno Hertzberger Encouragement Prize for Book History and Bibliography In Dutch and Flemish Newspapers of the Seventeenth Century Arthur der Weduwen presents the first comprehensive account of the early newspaper in the Low Countries Composed of two volumes this survey provides detailed introductions and bibliographical descriptions of 49 newspapers surviving in over 16 000 issues in 84 archives and libraries This work presents a crucial overview of the first fledgling century of newspaper publishing and reading in one of the most advanced political cultures of early modern Europe Seventy years after Folke Dahl s Dutch Corantos first documented early Dutch newspapers Der Weduwen offers a brand new approach to the bibliography of the early modern periodical press This includes amongst others a description of places of correspondence listed in each surviving newspaper The bibliography is accompanied by an extensive introduction of the Dutch and Flemish press in the seventeenth century What emerges is a picture of a highly competitive and dynamic market for news in which innovative publishers constantly adapt to the changing tastes of customers and pressures from authorities at home and abroad **New World Immigrants** Michael Tepper,1979 A consolidation of the many articles regarding ship passenger lists previously published **The New England Historical and Genealogical Register** ,1855 Beginning in 1924 Proceedings are incorporated into the Apr number **Catalogue of Additions to the Manuscripts** British Museum (London),1868 British Warships in the Age of Sail, 1603-1714 Rif Winfield,2010-03-10 The 1st volume in this comprehensive reference series details the design and employment of British warships in the 17th and early 18th centuries During the seventeenth century Britain transformed from a minor state into a global economic power with the largest navy in the world The character of this navy was forged by a bloody civil war three fiercely disputed conflicts with the Dutch and the first of many wars with the French In the process British naval ships evolved from the galleons that had defeated the Spanish Armada to prestige vessels like HMS Sovereign of the Seas and the lightly built frigates of the Commonwealth era This detailed and authoritative reference volume outlines the history of every ship built purchased or captured that saw naval service during this era Like its companion volumes the book is organized by Rate classification and class The technical and building data of each ship is followed by a concise summary of its career With its unique depth of information this is a work of the utmost importance to every naval historian and general reader interested in the navy of the sailing era **Law Reform in Early Modern England** Barbara J Shapiro,2020-02-20 This book provides an illuminating commentary of law reform in the early modern era 1500 1740 and views the moves to improve law and legal institutions in the context of changing political and governmental environments Taking a fresh look at law reform over several centuries it explores the efforts of the king and parliament and the body of literature supporting law reform that

emerged with the growth of print media to assess the place of the well known attempts of the revolutionary era in the context of earlier and later movements Law reform is seen as a long term concern and a longer time frame is essential to understand the 1640 1660 reform measures The book considers two law reform movements the moderate movement which had a lengthy history and whose chief supporters were the governmental and parliamentary elites and which focused on improving existing law and legal institutions and the radical reform movement which was concentrated in the revolutionary decades and which sought to overthrow the common law the legal profession and the existing system of courts Informed by attention to the institutional difficulties in completing legislation this highlights the need to examine particular parliaments Although lawyers have often been seen as the chief obstacles to law reform this book emphasises their contributions particularly their role in legislation and in reforming the corpus of legal materials and highlights the previously ignored reform efforts of Lord Chancellors
