Arthur der Weduwen,2017-11-06 Winner of the 2019 Menno Hertzberger Encouragement Prize for Book History and Bibliography In Dutch and Flemish Newspapers of the Seventeenth Century Arthur der Weduwen presents the first comprehensive account of the early newspaper in the Low Countries Composed of two volumes this survey provides detailed introductions and bibliographical descriptions of 49 newspapers surviving in over 16 000 issues in 84 archives and libraries This work presents a crucial overview of the first fledgling century of newspaper publishing and reading in one of the most advanced political cultures of early modern Europe Seventy years after Folke Dahl s Dutch Corantos first documented early Dutch newspapers Der Weduwen offers a brand new approach to the bibliography of the early modern periodical press This includes amongst others a description of places of correspondence listed in each surviving newspaper The bibliography is accompanied by an extensive introduction of the Dutch and Flemish press in the seventeenth century What emerges is a picture of a highly competitive and dynamic market for news in which innovative publishers constantly adapt to the changing tastes of customers and pressures from authorities at home and abroad *Annual Report* Great Britain. Local Government Board,1835 Supplements to the Board s Annual report include the Report of the medical officer Leibniz Discovers Asia Michael C. Carhart,2019-05-14 How did early modern scholars as exemplified by Leibniz search for their origins in the study of language Who are the nations of Europe and where did they come from Early modern people were as curious about their origins as we are today Lacking twenty first century DNA research seventeenth century scholars turned to language etymology vocabulary and even grammatical structure for evidence The hope was that in puzzling out the relationships between languages the relationships between nations themselves would emerge and on that basis one could determine the ancestral homeland of the nations that presently occupied Europe In Leibniz Discovers Asia Michael C Carhart explores this early modern practice by focusing on philosopher scientist and mathematician Gottfried Wilhelm Leibniz who developed a vast network of scholars and missionaries throughout Europe to acquire the linguistic data he needed The success of his project was tied to the Jesuit search for an overland route to China whose itinerary would take them through the nations from whom Leibniz wanted language samples Drawing on Leibniz s extensive correspondence with the members of this network Carhart gives us access to the philosopher s scintillating discussions about astronomy and mapping ethnology and missionary work the contest of the Asiatic empires of Muscovy Persia the Ottoman and China for control of the Caucasus the steppes and the Far East and above all language as the best indicator of the prehistoric genealogy of the myriad peoples from Central Asia to Western Europe Placing

comparative linguistics within Leibniz's intellectual program this book offers extensive insight into how Leibniz built his early modern scholarly network the network's functionality within the international Republic of Letters and its limitations We see the scholar isolated and lonely in little Hanover with his hands on knowledge trickling in from scientific centers across Europe and around the world By the end of 1697 the year his network finally began to work Leibniz laughed to one of his patrons I'm putting a sign on my door reading Bureau of Address for China Depicting Leibniz not as a philosophical authority but as a scholar with human limitations and frustrations Leibniz Discovers Asia is a thrilling and engaging narrative

William Penn Andrew R. Murphy,2019 It may surprise many that William Penn who founded one of the thirteen original American colonies spent just four years on American soil Even more surprising though is Penn s remarkable impact on the fundamental principles of religious freedom on both sides of the Atlantic especially given his tumultuous life from his youthful radicalism as leader of the Quaker movement to his role as governor and proprietor of a major American colony from royal courtier to alleged traitor to the Crown In the first major biography of this important transatlantic figure in more than forty years Andrew R Murphy takes readers through the defiant and complex life of a religious dissenter political theorist and social activist

Hans Willem Bentinck 1st Earl of Portland 1649 1709 was the closest confidant of William III and arguably the most important politician in Williamite Britain Beginning his career in 1664 as page to William of Orange his fortunes gained momentum with the Prince s rise to power in The Netherlands and Britain emerging as William s favourite at court from the 1670s onwards Taking a broadly chronological approach the central concern of this book is not simply to provide a biographical account of Portland s life but to explore wider political themes within a European context By analysing Portland s role within William s government it shows how royal favourites could still wield considerable influence on European events and help shape royal policy particularly with regard to foreign policy By engaging with the question of why such a figure emerged this study helps illuminate the workings of William s government and the central role of his foreign entourage Drawing from archival material in England Scotland France and The Netherlands it ties the history of post Revolution Britain with political events in the Netherlands It also analyses Anglo Dutch political relations during the crucial period of the Nine Years War Britain s first major commitment to a continental war since the sixteenth century In so doing it connects Dutch and British historiography and significantly contributes to our understanding of British politics during the 1690s both domestically and within an international context
